FOURTH CONVICT BACK IN PEN. ONE AT LARGE

Fugitive, in Miserable

Cleveland Robber Is Only

Not Returned

Columbus, Feb. 21.—With the capture of William Young, 40, Marietta convicted murderer, four of the five convicts who escaped early Tuesday from the Ohio state penitentiary were back in that institution today, all in solitary confinement. Young was captured near Shade-land about 8 o'clock last night by Constable John Guy and another officer. When taken into custody, the prisoner's foot was frozen and he was in such a miserable condition that he begged the officers to shoot him. He said, "just put a bullet through my head and do me a favor."

The arrest of Young, leaves only James Walker, Cleveland robber, who is believed to have been the "brains" of the plot in the jail delivery, at large.

Pat McDermott, "life-terminer" and "trigger man" in the Don Mellett assassination, and Mike Jacko, Cleveland murderer, were taken by authorities the same night they escaped.

Russo Also Taken
Joe Russo, Cleveland robber, was captured early yesterday near the same spot where the Marietta murderer was found.

Young, when taken into custody, refused to talk, but when police told him that Russo had been seized, he told how he and Russo had left the others as soon as they dropped over the walls. He said they had "laid low" all day Tuesday and at night broke into the store at Hartman farm whence they were driven by the revolver shots of the proprietor.

The convict told how he had hid out all day yesterday and then tried to move on last night but walked into the police net.

He related he had only ice cream to eat since he had "down the cup" early Tuesday. The man blamed "bad breaks" for his capture.

Refused Auto Ride
Young told the officers he had attempted to "run" a car on the Columbus-Chillicothe highway, but that the occupants brushed him off.

Winter Rages As Regime Nears End; Cold Sweeps Nation

Another snow fall in Salem last night was not the only visitation of Old Man Winter in the United States. He is blowing in his finger tips over practically the entire region east of the Rocky mountains.

A cold wave swept from the Louisiana coast within the past 24 hours and moved northward as far as Maine, according to James H. Scarr, meteorologist.

It carried a blanket of snow on its back which covered all of southern New England, all of New York state, except the northeastern portion, spread over Pennsylvania, West Virginia and the mountain sections of Virginia, North Carolina, Tennessee and Kentucky.

Storm warnings were displayed from Atlantic City to Esport, Me., and northeast gales were predicted from Sandy Hook east this afternoon and tonight.

Meanwhile, another icy wave was cracking down from Canada through the Missouri valley and was due to reach Minnesota today.

In North Dakota, the thermometer registered 10 degrees below zero. In Canada north of the Dakotas, it was 30 degrees below zero.

HOOVER PROHIBITION SURVEY LOOMS WHEN CHEIFTAINS CONFER

President Coolidge May Head Committee Which
Will Check Dry Enforcement Over
Entire United States

Washington, Feb. 21.—Reactions of the "Hoover curb market" indicated today that the president-elect is devoting considerable thought to the trying problem of prohibition—the expression "curb market" being used advisedly in view of the fact the reporters assigned to Mr. Hoover are covering his activities from the chill of the curbstone that fronts his Washington residence.

Senator Walter Edge of New Jersey, outstanding "wet" leader of the senate, had breakfast at 2300 S st., this morning, and there was reason to believe the president-elect discussed with him the matter of assembling a non-partisan fact-finding commission immediately after March 4 to look into the causes back of the breakdown in prohibition enforcement.

Mr. Hoover has committed himself to the creation of such a body. Edge, in conjunction with Senator Wesley Jones of Washington, the "dry" leader, originally had intended to compel its appointment by act of congress, but withdrew the bill when the coming chief executive announced his decision.

Prohibition needs probing in the worst way in Mr. Hoover's opinion, and he is reported to be casting about for a competent body of probers with the same care he is exercising in the selection of his cabinet. Nine men—or men and women—will make up the personnel of the Hoover fact-finding commission representing between them all sections of the country.

Mr. Hoover would like to get some body like Calvin Coolidge, the retiring president to head this body. He would be eminently satisfactory to wets and dries alike. Always acceptable to the Anti-Saloon League, President Coolidge nevertheless is not regarded as a fanatical dry, and both sides give him credit for having the type of impartial, judicious mind that is capable of getting at the facts of the situation without recourse to the prejudices which exist.

If he permits himself to become available, there is little doubt but that he will be chosen.

LEGISLATOR ASKS OHIO PEN QUIZZ

Investigations Under Way
In Columbus; Warden
Welcomes

Columbus, Feb. 21.—Three investigations are under way today, and another quiz, which will probably be more extensive, is pending into the escape of five convicts from the Ohio state penitentiary here early Tuesday morning.

Warden P. E. Thomas is conducting a quiz, and Welfare Director Hal Griswold has a separate investigation under way. J. B. Youngblood, construction engineer of the cell block from which the men sawed their way to freedom, is also conducting an investigation as to what measures he should take to make the new cell block "escape proof."

Rep. James T. Anderson, of Stark county, introduced a resolution before the lower house of the state legislature yesterday to institute a legislative investigation. The resolution was sent to committee and is expected to come up for passage this week.

This investigation, if made, will probably be of far-reaching results.

Warden Thomas was apparently angered when he heard that the legislators had "meddled." He said, however, he would welcome the quiz as it would bring before the public the conditions he has to contend with in the lodging of more than 4,800 prisoners in the penal institution. The warden said the prison was overcrowded and that the legislative probe may result in the betterment of conditions.

Charleston, W. Va., Feb. 21.—Eluding the authorities of a score of counties in West Virginia, Ohio, and Kentucky, four of the six prisoners who escaped from the Kanawha county jail here yesterday after brutally beating a jailer, were still at large today.

Posses last night captured Gerald Flemmer and Virgil Kemp. The former was found in hiding here and the latter was discovered at Eastbank, across the river from here.

Heavily armed forces of county and city authorities combed the hill regions today in search of Adron and Dava Biss, brothers of Huntington, W. Va.; Julian Liebel of Charleston, and W. R. Proctor, who was being held for Raleigh (N. C.) authorities on charges of robbery.

Jailer Beaten In Escape
The six prisoners gained their freedom yesterday when they slugged a jailer, obtained the keys to the jail door and commandeered an automobile which was passing in front of the jail when the men reached the street.

The automobile was found abandoned near Gallipolis, and a second machine, believed to have been stolen in Gallipolis, was found wrecked at the foot of a steep embankment on the outskirts of Athens, O.

The prisoners are believed to have obtained a third automobile and headed for Huntington, W. Va., running over a trail which took them back and forth into Ohio and West Virginia. The fugitives are thought to have remained in Huntington long enough to have secured food and then to have doubled back in the direction of Eastern Kentucky, taking the back mountain roads.

Policeman Bay Die

Chicago, Feb. 21.—Richard Percy, 50, is dead, and Policeman Patrick Fox is probably fatally wounded today as the result of a gun duel in Perry flat.

Four policemen, including Fox, went to the Percy apartment in response to a call that "a man with two guns is beating a woman."

Percy met the officers at the front door and opened fire with two guns. Fox went down, wounded in the abdomen and right arm.

The other officers ended the crazed man's attack with a volley of well-aimed shots.

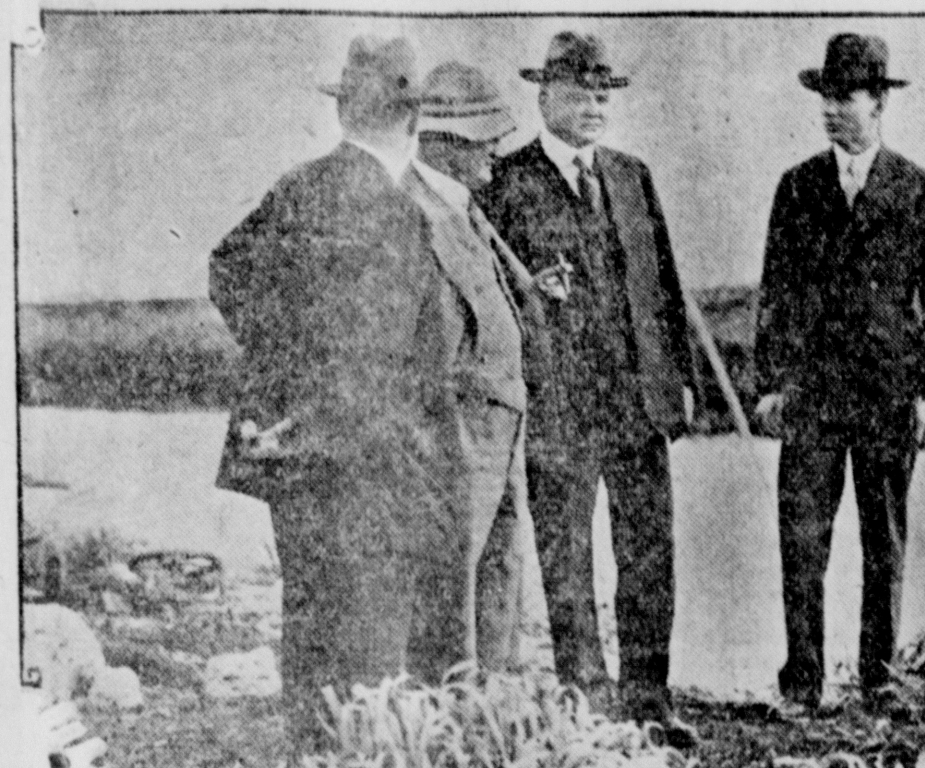

Percy, according to his wife, Lillian, became suddenly "mad" and threatened to kill her and their five-year-old daughter.

Salem Man Faced Trial For Second
Time; Attorney May Appeal Case;
Return at Five O'clock

George McCaye, of Salem jointly indicted by the January grand jury with Walter Mellinger on two counts of burglary of storehouses at Salem, was found guilty as charged by a jury in common pleas court No. 1 shortly after 5 o'clock last night.

This was the second trial for McCaye, Mellinger having entered a plea of guilty when he was arraigned last month. McCaye was placed on trial two weeks ago a mistrial resulting when the jury stood 10 to 2 for conviction. It is probable Attorney H. L. McCarthy of Salem who was retained by McCaye to defend him, will file a motion for a new trial. The case started last morning.

Regular Trucking Schedule to Pittsburgh Now In
Effect; Farmers Share In Dividends of
Fertilizer Returns; Grading Meets

Lisbon, Feb. 21.—Co-operative shipments of livestock in Ohio during October broke all previous records for volume, announces County Farm Agent Floyd Lower.

Livestock valued at \$1,667,309.40, represented the net returns after freight and handling expenses have been deducted, for 1,136 carloads of all species of livestock weighing 17,050,112 pounds and originating in 41 counties. The new record exceeds that standing since December 1925, when hogs were selling for around 17 cents a pound.

Columbiana county farmers have established a regular schedule for trucking stock to Pittsburgh on Tuesday of each week. They are also planning a livestock grading demonstration at the Firestone farms March 6. A detailed program will be announced next week.

Checks for \$57,272.56, representing patronage dividends to farmers on fertilizer cooperatively purchased throughout the farm bureau during the fall were mailed from Columbiana recently.

Columbiana county farm bureau's share, which will be distributed to farmers of this county, was \$1,509.07.

DOLLAR DAYS TO START TOMORROW

Salem Merchants Cooperate to Offer
Values to Buying Public In
Two-Day Sale

A total of 21 Salem merchants are offering remarkable bargains for a two-day Dollar Days' sale which will be held Friday and Saturday. All lines of merchandise will be on display for the special sale.

"Try Salem First," is the slogan of the merchants, the event being expected to draw shoppers of not only this city, but of other nearby communities. Shoppers look upon Salem as a shopping center where values are consistently outstanding, but the Dollar Days' period each year brings a list of especially remarkable bargains.

New spring styles are rapidly filling corners of the 21 stores, and despite the unexpected blanket of snow which has covered this section of the state during the last two days, warmer weather appears to be just around the corner and the Dollar Days' event seems to be timely and offers are particularly appealing.

Altoma, Pa., Feb. 21.—Ten persons, including two mothers and their eight children, were burned to death when fire destroyed a home in Carrolltown, near here and another in Hillsboro, near Johnstown, early today.

Mrs. Mary Smeltzer Mangold lost her life at Carrolltown with her five children whom she tried unsuccessfully to rescue. At Hillsboro, Mrs. Emma E. United States Names Area For
Wife; Uses Airplanes

New York, Feb. 21.—The New York Times, the St. Louis Post Dispatch and Associated Newspapers announced today that Commander Richard E. Byrd has made another extended flight with two planes over the Antarctic in which he discovered and mapped much new territory. The flight was made Monday, Commander Byrd claimed the newly found land in the name of the United States and named it after his wife, Marie Byrd land.

A second Antarctic mountain range was included in the discoveries, Commander Byrd reported, south of the range previously charted and called Rockefeller range. Peaks from eight to ten thousand feet high were sighted.

Marie Byrd land lies between the Ross sea and Graham land. It appears from the air to be a larger territory than the Ross dependency, claimed by Great Britain.

MARKED SAFETY OF RAIL

TRAFFIC

Charles E. Hill, general safety agent of the New York Central system, makes the announcement that of the 450,000,000 passengers carried by his system in the five years from 1923 to 1928 only two suffered death as the result of train accidents.

It is not alone interesting, but most decidedly pleasing as well, to note the marvelous results of the campaigns of the railroads to protect both their passengers and their employees from accident. The reader will note our reference to the "general safety agent" of the Central. How short a time it has been comparatively, since such a thing as a safety department of a railroad system was unknown. Yet now every system has one.

And that they are effective is demonstrated not only by the record of the New York Central we have noted, but also by the steadily lessening number of accidents which the railroads of the land suffer from year to year.

Statistics show that from 1923 to 1928 American railroads have reduced fatalities to passengers by 62 per cent and injuries to passengers by 88 per cent, and the reduction of fatalities and injuries to employees has been almost as substantial.

We have before us the statistics put out by the New York Central, which may be held to be typical of these of our other big railway systems. They show that, during the five year period mentioned, deaths of and injuries to employees have reduced 61.54 per cent, deaths of employees being cut from 233 in 1923 to 113 in 1928 and injuries from 13,427 to 4,095. Even the number of crossing casualties on that system have been reduced, despite the greatly increased volume of vehicular traffic in the period named, 30.9 per cent.

It is a matter of actual fact that one may well take to train travel, on the strength of the record of recent years, as a "Safety First" proposition.

What Others Say

FACING TRIALS

Theodoros Pangalos was dictator of Greece from January until August, 1928. Since the latter date he has been in jail. Now Pangalos together with four of his former political associates, is about to be tried on various nasty charges. In all likelihood he will go back to jail after the trial. Perhaps he will remain in jail from then on.

Pangalos will, however, be more fortunate than the wretched Goulmetis who with his chief ministers was let out and shot by a firing squad for having lost the disastrous war against the Turks. Goulmetis was not admired outside of Greece, but his savage punishment shocked the rest of the world. Venizelos will not permit Pangalos to be put to death, though it appears that the fallen dictator was a far more serious offender than Goulmetis. In addition to having overthrown constitutional democracy Pangalos is charged with various pecuniary crimes which are altogether unheroic.

Pangalos is today the only fallen dictator in Europe. All the other men who have seized autocratic power and abrogated constitutional government are still doing business with no sign of weakening. Mussolini, Cernomora, Primo de Rivera, Pilsudski and Alexander Karageorgievich have adequate support to assure durability and they are, without exception, imposing figures, far above even the suspicion of such meanness as is alleged against Pangalos.

Greece today is very fortunate. She has as leader one of the greatest statesmen of the century. Eleutherios Venizelos will not make the mistake of permitting Pangalos to be a martyr. Jail or exile will undoubtedly be the future of the one dictator who failed. Cleveland Plain Dealer.

The Stars Say—

For Friday, Feb. 22

DOUBTS and perplexities seem to reign on this day, judging by the affliction of the planet ruling bargaining, selling, gambling, and business activities generally. In these there may be friction, delays, change and uncertainty. But in all that pertains to the purely personal relations, or to art, amusement, or those businesses catering to the home or to women, a very benign state of affairs may prevail. The energies should be concentrated on these.

Those whose birthday it is may prepare for a most favorable year in personal affairs, in all that pertains to art, culture, amusement, social, domestic and affectional concern, but in more sordid activities delays, change, doubts and risk are presaged. A child born on this day may be clever and accomplished in all making for social and artistic skill and graces, but its disposition may be variable, uncertain and may need direction into lines of probity and honor.

When the mind is in a state of uncertainty, the smallest impulse directs it to either side.—Terence.

Skin Eruptions

SKILLED physicians recognize the appearance of pimples, boils and other skin eruptions as being an indication of an abnormal condition of the system.

This is why so many thousands have been enabled to free themselves of these unsightly blemishes and painful skin annoyances by taking a course of S.S.S.

You owe it to yourself and friends to give S.S.S. a trial. It helps Nature build rich, red blood—those vitalizing elements in the blood that build and sustain the body.

SYMPTOMS OF SLEEPING SICKNESS ARE VARIED

BY ROYAL S. COPELAND, M. D.
(United States Senator from New York)

Doctors use a great many big words. "Encephalitis" is one of these. This word is defined as an inflammation of the brain substance.

To the anatomist the brain is known as the "encephalon." This shows you why the term encephalitis is used to express inflammation of the brain.

Even the doctors heard little about encephalitis until after the influenza epidemics of 1918 and 1919. It was observed that influenza was followed in some cases by certain symptoms which indicated an inflammation of the brain. To this disease was given the name "influenzal encephalitis." It is known to the laity as "sleeping sickness."

The way the ailment announces its presence is by the haziness of mind or actual unconsciousness which suddenly appears. The afflicted person is walking along the street and suddenly falls down, unconscious or almost so.

This attack is not like a "fit" as ordinarily understood. There are not likely to be convulsions and frothing at the mouth. There is a dulness or stupor which was never experienced before.

In some cases there may be convulsive attacks. Later on it may be observed that the eyes do not focus or they appear crossed.

Sleeping sickness is an obscure sort of ailment. Sometimes it is extremely difficult to determine that it is really an attack of encephalitis. The doctors have difficulty in deciding whether the symptoms are due to tumor of the brain or hemorrhage into that organ. There have been cases where it was first thought the patient had been poisoned.

I am speaking of sleeping sickness because of a letter which came to me from Toronto. I suppose there have been cases there as there have been in other parts of North America.

The severity of the symptoms leads always to consultation with the family doctor. On this account it is unnecessary for me to make any statement regarding the treatment.

I am glad to say that many of the patients I have known about have recovered. It is necessary to be conservative however, because any inflammation of the brain is bound to be serious and the recovery slow.

The onset of sleeping sickness is sudden, fever appears and the symptoms do not mean sleeping sickness. As a matter of fact there are so few cases there need be no fear of its attacking you or yours.

Visitors Many at Scene of Eruption
In Hawaii; Scientists Claim Worst in Years

Honolulu, Feb. 21.—With Kilauea volcano in eruption, visitors today flocked to the island of Hawaii to witness the spectacular display of fire and lava spouting from Halemau-puu pit.

Activity in the pit was somewhat diminished today but all floor vents were still working vigorously and numerous fountains continued to pour smoke and fire.

News of the eruption, former Secretary of War, was among the distinguished visitors to the volcano.

Dr. Thomas Jaggar, volcanologist, reported the present eruption was the most severe since 1927.

Whoopie Age Is Growing Younger

New York, Feb. 21.—The whoopie age grows younger. A boy, three years old, and his girl friend, four, were pronounced intoxicated by a hospital physician and sent to the alcoholic ward of Bellevue hospital for treatment.

A patrolman found the babies staggering along an upper East Side street. The officer sent for an ambulance.

A frightened mother who had left the boy with a neighbor reclaimed both children. She could not explain where they obtained liquor.

COLUMBIANA

Rotarian B. F. Stanton, superintendent of the Alliance schools, gave a most interesting and instructive talk on "George Washington" at the meeting of the Columbiana Rotary club Monday evening. The memories of all present were refreshed on the history of our first president, and Mr. Stanton brought out many side lights on Washington's life that were unknown to the average citizen.

Three new members were welcomed into the club at the meeting. President P. H. Felger making a brief talk of welcome and instruction as to the duties of their membership. The new members are Walter D. Young of the Production Foundry company, Roy V. Harrold, of the Harrold Tool company, and Harry W. Lundgren, manager of the Globe theater.

Next Monday evening in the dining room of the Presbyterian church, the club will be host to the members of the boys and girls basketball teams of Columbiana High school, with their coaches and managers. Parents of the players may also be present if they wish. The speaker for the occasion will be Ross H. Clarke, physical director of the Youngstown Y. M. C. A.

In the opening games of the Columbiana County Class B basketball tournament, which will be held Thursday and Friday at Salem High gym, Columbiana girls will meet Salineville girls, and the Columbiana boys will play Fairfield High. These games will be played Thursday evening, as will also games between the Fairfield and New Waterford girls, and the New Waterford and Rogers boys, Salineville boys drawing a bye in the first round. Friday afternoon neither Columbiana team will play, the local boys having drawn a second-round bye. The finals will be played Friday evening beginning at 7:30. If there is anything in previous history or "dope," the Columbiana and Fairfield girls will be in at the finish, while the Columbiana and Salineville boys will fight it out for the championship. This last game should be especially interesting, as each team holds a victory over the

other on their home floors this season.

The opening session of the meeting of Mahoning and Columbiana County Fruit Growers was held Tuesday afternoon at the Columbiana school building with a good attendance. County Farm Agents Floyd Lower of Lisbon, and J. C. Hedges of Canfield were in charge, and the speakers for the meeting are C. S. Holland, T. H. Parks and A. L. Pierstorff of the Ohio State university school of agriculture.

Both morning and afternoon sessions were to be held Wednesday. The annual bean bake given by Hattie Bishop Circle, Ladies of the G. A. R., held Tuesday evening in the American Legion hall, was well attended, and the usual bountiful supper was served to the public.

The Daughters of the King class of the Lutheran Sunday school held the February business and social meeting Tuesday evening at the church. A program relating to Washington's birthday was given. The next meeting of the Columbiana Circle of the Child Conservation League will be at the home of Mrs. Roy Bilger next Monday evening.

HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.

That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And everybody, in almost every circle, sees the change. New beauty, new health, new vitality.

Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

The next time you bake use Pillsbury's Best Flour, and notice how much better everything tastes.

The flour you use has a lot to do with the flavor of the foods you bake. The food editors of leading magazines—women who have spent their lives studying baking—say that this is true. There's a good scientific reason for it. Certain kinds of wheat are richer in flavor than others, and Pillsbury's Best is made only from these carefully selected types of wheat. Try it yourself—you'll find a delicate, unmistakably better flavor in everything you bake!

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. When your child is sleepless.

This remedy rarely fails.

Constipation is a common cause of sleeplessness, both in children and adults. When a child is wakeful and fretful, see if tongue is coated; this is a sure sign the stomach, liver and bowels are clogged with sour, irritating waste. Simply give a dose of "California Fig Syrup" and in a few hours all the sour bile and fermenting food passes out of the bowels, and you have no more anxiety over the child's excitability and wakefulness at night. Children love this harmless "fruity" laxative. It banishes biliousness and constipation, regulates the bowels and insures pure blood, a clear complexion, joyous spirits, a keen brain, healthy appetite and helps to build a strong constitution.

See that the Fig Syrup you buy bears the name "California," so you won't be imposed on by imitations. Adv

deserted, asserted that he had been forced to drive the men from Charleston to the Ohio city under the threat of death. Thomas is held in jail here charged with aiding in the escape.

Fire on Motorist

Found wandering in the vicinity of the wreckage of the second automobile, near Athalia, O., D. A. Boyd, casket salesman of Charleston, declared that the prisoners shattered the windshield of his automobile with bullets, forced his traveling companions from the machine, and held him a captive in the rear seat. Several times he warned the prisoner who was driving, he said, to slow down but he did not pay any attention. They had not gone far, he added until the car skidded and overturned, going down the embankment. No one was injured, he concluded, and the men crawled back to the highway and disappeared.

From W. G. Wilks, washing machine agent, the authorities obtained the story that the men reached Huntington in his automobile and talked of going to Eastern Kentucky over the rough, dirt mountain roads. Wilks said the men tied him to a tree, on the outskirts of Huntington, with a clothesline purchased at a country store.

With more than 12 inches of snow back in the hills, authorities doubted if an automobile could get through. Mounted on horses, armed posse were patrolling the backwoods roads on the theory that the men had to abandon the car on account of the snow drifts and were wandering aimlessly about.

The Bias brothers were to have gone on trial today for the holdup of a Charleston street car. Julian Liebel was recently returned from Atlanta, Ga., for participation in the same robbery. The injured jailer was reported out of danger in a hospital here.

THE SALEM NEWS

—watch all gas fires, and never allow gas stoves to burn through the night. In thawing out frozen water pipes—a very dangerous practice—utmost care should be used.

"Waste paper and other inflammable rubbish, lying near a heater or furnace is especially hazardous. A flying spark while firing up, or dropping of a match, will in a few minutes imperil the entire household and the lives of its occupants. Keep all paper bundled up, and remove it from the basement or other parts of the house immediately," the fire chief warned.

Rubber hose connections, faulty chimney connections, handling of matches and various other matters were cited as dangerous in homes, and should be remedied immediately.

Pedestrians Dodge
When Blum Comes

Columbus, O., Feb. 21.—L. M. Blum, Columbus motorist, is hard on pedestrians. Blum's car struck and seriously injured Leonard Guthrie. He took the man to White Cross hospital here. Returning from the hospital, his car struck H. R. Thatcher, who suffered a broken collar bone. Though police absolved him in both cases, the conclusion that Blum is hard on pedestrians is not far amiss.

Konjola Scores Quick and Complete Victory In Stubborn Case For Ohio Resident

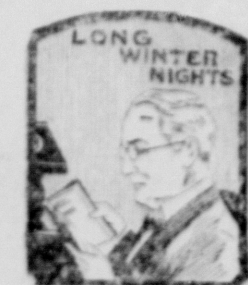

MR. ALBERT DILLEY

"Despite the many splendid inducements of Konjola, I certainly was not prepared for the huge surprise it gave me by restoring my health after years of suffering," said Mr. Albert Dilley, P. O. Box 42, Washington Court House, Ohio.

"For ten years I was the victim of a most distressing and stubborn case of indigestion. Once I was unable to work for three weeks and two days. When I did work it was under great disadvantage and with pain, for I was really too weak to be on the job. I became greatly discouraged, for when one has hunted for relief for ten years and found none, there seemed to be little hope of ever being better."

"In the four months following my use of Konjola, I gained thirty-three pounds. I have not missed a day's work since I started the treatment, and by the time I finished four bottles, my digestion was absolutely restored. I want to tell of this splendid success of Konjola so that others will know there is such a remedy within their reach. To me Konjola is a priceless medicine." Konjola is sold in Salem, O., at J. H. Lease drug stores and by all the best druggists throughout this entire section.—Adv.

Triple Windup Features Foreman's Club Boxing Show Friday

Classy Array Of Battlers Appear Here

Three Eight-Round Bouts Draw Attention Of Entire District

The colorful atmosphere surrounding all ring battles—the dull thud of leather upon leather, with whirling of flashing humans endeavoring to outguess opponents, and clangs of timer's bell—will force concentration of the eyes of northeastern Ohio's sporting followers to the Memorial building auditorium, tomorrow night, when at 8:15, there will open the second feature boxing show sponsored by the Foreman's club of the Mullins Manufacturing corporation this winter.

Four bouts—each of them a feature in itself—totaling 30 rounds have been scheduled for the exhibition. Three embroils of eight rounds each and a six-round opener, together with a novelty fistie demonstration by the Porto Rican twins, constitute the program.

Pugilists will ring in at the Memorial building, under the supervision of Dr. R. T. Holzbach, at 3 o'clock, tomorrow afternoon. All participants have posted forfeits for their appearance, and advance notices indicate that each man is in fine shape for his scrap.

Rudy vs Anderson
The final will bring back to the Salem ring Young Rudy, Charieroi, Pa., youth, tutored by the colorful figure of ringdom, Reddy Mason, who headed the destinies of the late Harry Greb, known throughout the fistie realm as the "wind-mill flash." Rudy has fought at the Memorial gym on various occasions, and won his bout on each appearance here. Rudy will oppose Fritz Anderson, flashy Detroit, Mich., welter, who recently battled Morris Sherman for a draw in the clash for the Michigan state welterweight title.

The second of the eight-round features bears an interesting local angle, as it tosses into the same ring U. S. Carpenter, of Pittsburgh, and Jimmy Perry, Alliance lad who is more or less considered a sensation in his home town. Carpenter battled in Salem twice, winning the decision in one clash and the verdict by a kayo in the second.

Carpenter Meets Perry
Carpenter, with Young Rudy, fights under the helm of Mason, and in his latest matches, battled Frankie Rio, one of Jimmy Dunn's sensations from the Cleveland district, to draws in Youngstown and New Castle. Rio is accredited with a decision over the Pittsburgher in another fight, but each was one of the most spectacular ring affairs seen in years.

Perry hasn't been doing so much fighting of late, but is said by E. M. Murley, promoter of the show, to be in top condition.

Frankie Susnell, of Detroit, will indulge in the opening eight-round bit of entertainment in a swatfest against Tony Leone, of Dover. Susnell started his ring career around Pittsburgh, but has been located in Detroit for the past year. Leone, one of the finest lighties in the district, was considered a sensation about a year ago, but fell off considerably in the past six months, due to a lengthy layoff caused by illness, and is now trying for a comeback.

Leone Tries Comeback
The adage that states "they never come back" is a source of much dissatisfaction to the Italian, who in the last Mullins show, battled Don Burchard, another Detroit, to a beautiful draw.

Joe Long, of Alliance, who was awarded a draw in a classy prelim against Young Cercene, of Dover, last year, at the Salem auditorium, battles Jack Frost, of Dover. Both are said to be comers in the game.

Dr. George "Gordy" Dunn and Harry "Benny" Havner, well known figures in Salem sports, will be at the ringside, bearing responsibilities of judges, while Jack Welch, of Youngstown, will officiate. Reddy Mason may act as third man in the six-round.

Tickets for the show are going fast. Murley states, a few still being on hand at Reich and Rugg's, Salem athletic headquarters.

Emmett Rocco Opposes Yale Okun Tonight

Elwood City Heavyweight Faces Stiff Test In Youngstown Ring

Emmett Rocco, sensational Ellwood City battler makes his first appearance in a Youngstown ring tonight since his recent clash at Madison Square Gardens, New York City, when he tackles his toughest opposition of his meteoric ring career, in the person of Yale Okun, in the final of a feature show at the Rayen-Wood auditorium tonight.

Johnny Rohanna, of Norfolk, Va., will tackle Johnny Dinger, of New Castle in the six round semi-final, and Young Guido, a slugging Sharcon lad, will do battle with Joe Feldman, classy Cleveland scrapper, in a six-round prelim.

Al Reno, Youngstown kayo specialist tangles with Joe Jeanette, Canton, in another six-frame affair, Jimmy Engle and Joe Stemple being slated to provide action in the lid-lifter of four sessions.

The fight is the first one promoted by Al Zill for several months, and stacks up as one of the best to be arranged in the city in years. Rocco is out to force recognition of New York promoters by annexing a kayo over Okun, to redeem himself for the licking he sustained at the hands of Jack Gross, in his virgin big-city battle.

Here's One Clash That Will Be For Blood In Tourney

Two Salem-coached teams will meet in the opening round of the county class B tournament, which will be held at the High school auditorium tonight. Rogers High, prepped by Lloyd Loop, Salem High grad, stacks up against New Waterford High basketballers, coached by Emmor Ackelsen, another Red and Black product. Both graduated in 1923.

The two teams have met twice this season and broke even in two contests.

Waterford's team has an unusually fine record for the season, having won eight and lost only four games. A total of 312 points were scored against opponents' 273.

"Round here in the foothills of the Blue Ridge, we've been raisin' tobacco since my grandpap was a boy. We grow the makin's for all the leading cigarettes.

"Well, Suh, a few years ago an OLD GOLD man came through here and said: 'I don't want any of your sleazy ground-leaves. I don't want any of your gummy top-leaves. I only aim to buy your heart-leaves. And I'll pay the price.'

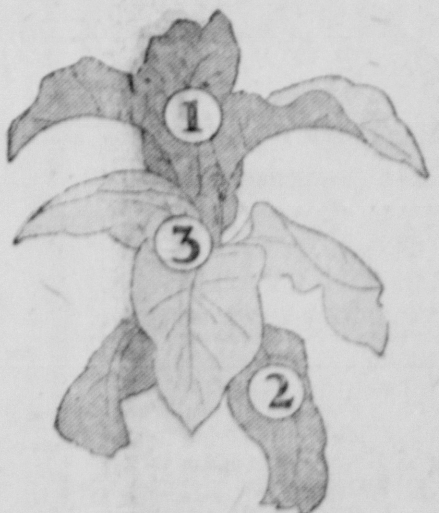

"Now every old-timer, down in his heart, knows that the top and bottom leaves may bite the throat. And he knows that the heart-leaves make the smoothest smoke.

"But when the OLD GOLD people demanded the heart-leaves, that was something new in these diggin's. That's how OLD GOLD became the throat-easy cigarette . . . that's where 'not a cough in a carload' came from."

MOVIES

In Playhouses Of Salem

"BATTLE OF THE SEXES"
There are few pictures being made now that can evoke a large audience into a state of tears and the very next moment make them laugh—a loud uproarious guffaw of spontaneous merriment—yet D. W. Griffith's "The Battle of the Sexes" shown at the State theatre last night did that very thing.

The joys of the average home; its disappointments; its humor and its small tragedies have been ably caught by Griffith who shows an innate sense of the romanticism lying behind America's greatest institution—the home.

It seems safe to say that no better example of comedy through pathos has been seen in years. The

picture is so thoroughly human that a sympathetic flow of interest is aroused in the actions of all of its players.

The story is built upon the theme of a modern gold-digger who wrecks a man's home and steals the man to satisfy her own lust for gold. In the end she loses the man but is victorious in that she has accomplished her purpose—money. Throughout the story there is a strong upper current of pathos as the man's wife and two children struggle to regain their home—the old battle of the sexes.

Don Alvarado, featured player in D. W. Griffith's "The Battle of the Sexes" frankly admits that he lived on nothing but candy during his first week in Hollywood. Not able to obtain work, even as an extra, he found a job in a candy factory in Los Angeles, and having no money, he had chocolates, peppermints and nougats for breakfast, lunch and dinner.

Now candy serves him only as a chaser.

AT THE GRAND
The proverbial feud between Mutt and Jeff, Bud Fisher's famous cartoon classics, will be depicted in Salem the rest of this week, when the noted stage showing of "Mutt and Jeff's Honeymoon" will be presented at the Grand theatre, Thursday, Friday and Saturday.

The stage classic will be co-featured with the stellar screen picture, "Marked Money," tonight, while "Morgan's Raid," a historical affair, will be shown Friday and Saturday.

"SALLY'S SHOULDERS"
With today's showing, "Sally's Shoulders," the engaging FBO presentation of the widely-read serial novel by Beatrice Burton, ends its run at the Royal theatre.

Seldom in her notable career as a screen star has Lois Wilson appeared to better advantage than in the role of Sally, whose adventures in her struggle to provide for the family whose care was loaded upon her shoulders by fate were followed by millions of readers when the novel was published in newspapers throughout the country.

HOME-MAKING HELPS

Culinary Echoes from the Orient

We home-loving Occidentals are usually slow to accept Oriental food. We don't understand its preparation so generally say we do not like it, a rather poor excuse for our ignorance. If we could carefully investigate, be willing to taste and try the foods, we might wake up to the fact that we have been missing a whole lot of good things. Some dishes, of course, are prohibitive because of the lack of proper ingredients in this country, but many transplant successfully.

Rice, for instance, so frequently bedily cooked in America, begins and ends many Oriental meals—and it is always well cooked. So if we learn to cook rice properly we have made a long step towards mastering the staff of Oriental cookery. If the rice should be soggy and glutinous or have a "bone" in it the dish of which it is perhaps a part, is sure to be ruined.

Oriental Rice
Wash the usual cupful of rice, then put it into a saucepan with three cupfuls of water, boil for 25 minutes then drain and pour on cold water and wash the rice until all the milky water is gone, wash in several waters until the grains seem to stand apart, then let drain. When drained set in the oven to dry off, stirring frequently until it is all as evenly dry and separate and flaky as pop corn. This is Oriental rice.

Greek Lamb Stew
Lamb is the meat of the Orient and it is cooked in many different ways. Take a pound of fat lamb and cut into small pieces, put it into a hot frying pan and let it cook in its own fat, turning the pieces so that they brown evenly. Add two minced onions to the meat and fry ten minutes longer. Add two sliced tomatoes and a quart of string beans.

lengthwise, once melt together for five minutes then add three cupfuls of stock, a teaspoonful of salt, a saltspoonful of red pepper, two tablespoonfuls of olive oil, and cook gently for 25 minutes, when the beans should be done. Serve hot with rice prepared as already directed.

Dolmas
If you have no grape leaves in which to wrap your dolmas, cabbage leaves will do as well. Let them simmer for five minutes then drain them. Pray two tablespoonfuls of pine nuts in one tablespoonful of oil. When golden brown lift from the pan and crush them. Chop fine four onions, six sprays of parsley, and fry them in the oil. When they are cooked, but not brown, add oil and a half cupful of finely minced raw lamb, and a half cupful of the boiled rice. Return the nuts to the mixture and cook all together for five minutes, stirring well. Now add a cupful of stock, salt and pepper, and cook until the moisture is taken up, about 15 minutes. Now spread out the drained cabbage leaves, there should be 16 of them, and place a spoonful of the meat mixture on each. Fold one point to the center and roll tightly. Spread three or four cabbage leaves on the bottom of the pot and put in the dolmas, inverting a plate over the top to keep them in shape. Pour in cold water to cover the plate, and boil gently for one and a half hours. Serve hot.

Curried Bananas
Peel and slice an onion very thinly, brown it lightly in one tablespoonful of butter, sift in a level tablespoonful of curry powder, add a half tablespoonful more butter and rub smooth, pour in a cupful of good chicken broth, stir and blend and when it simmers add a quarter cupful of grated coconut, and a grated raw apple. Simmer until the apple is dissolved and the coconut is tender. Blend a tablespoonful of brown flour with a little water and stir into the sauce and when

smooth add six halved bananas, very ripe and mellow, then they will cover closely and cook for 10 minutes very quickly. Serve in the center of a rice ring on a hot dish.

go through the winter without any trouble from colds. It's a compound that comes in little white tablets. Take one, and that first snuffle is just about the last; or several tablets if you've let the cold go until it's serious. Pape's Cold Compound is all you ask for; and the druggist charges 35c for a package, and it never seems to fail for anybody. Adv.

AFTER OPERATIONS

"I was three times under an operation and I was very weak and nervous and could not eat. I suffered for ten years. I learned about Lydia E. Pinkham's Vegetable Compound and my husband bought me a bottle. I felt a little better and he bought me two more. I had the Compound in my home for two years and took it all the time. Now I feel strong and can do anything."—Mrs. A. Michalk, 5443 Mitchell Ave., Detroit, Michigan.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Don't Risk
the Dangers
of
Window-Box
Refrigeration

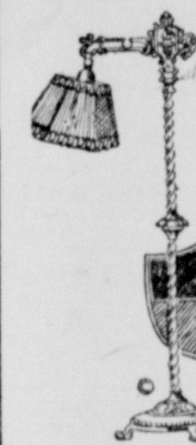

DOMESTIC science authorities decry the use of window boxes or other makeshift contrivances for keeping foods cold. The rapid changes in outside temperature render such boxes unsafe.

Foods often freeze and as often spoil, when the mercury "dances a jig." Then, too, the exposure of foods to dirt and contamination in window boxes or damp, musty cellars, is a serious mistake. You can much better afford the small cost of ice than you can afford to be without its reliable every day protection.

THINGS TO KNOW ABOUT OUR SERVICE

When 2,000 Candles Burned at Washington's State Dinner

Proud indeed were our Colonial forefathers of their First President, fairly showering him with appreciation for the gallant leadership that won our independence. At a great state dinner in his honor, the banquet hall glistened with the light of 2,000 candles.

Historians recorded the cost

of this illumination — at \$10 because it was an unheard-of extravagance.

Today, light equivalent to 2,000 candles is provided by 50 electric lamps of 50 watts for 18 cents an hour. But the glow of 2,000 candles in a big banquet hall would be far too feeble for our modern requirements.
